

Impact Data VISTA

Please consider this exciting opportunity to contribute to our mission, gain valuable work experience and receive a small living allowance all at the same time.

All United Way of the Greater Lehigh Valley AmeriCorps VISTA assignments will expand capacity towards population level goals across the region. UWGLV strives to create population level change in areas of education, food access, healthy aging and emergency services to ensure individuals who experience crisis have the supports they need to rebound. The UWGLV VISTA project focuses on strengthening the networks of providers that deliver services to address concerns and through working with UWGLV staff they support the efforts across all four-issue areas. VISTAs address issues at the programmatic and system levels seeking to identify and deal with the root causes by utilizing the collective impact framework.

An AmeriCorps VISTA assignment is a federal volunteer opportunity for which you commit to a year of service and receive a living allowance. Participants must be 18 years of age and have a combination of community service and/or equivalent college experience. They receive an end-of-service stipend or education award, health coverage, training, a relocation allowance, a living allowance and childcare assistance if eligible. The work is full-time; VISTAs are permitted to do paid part-time work during their assignment to supplement their income. Our AmeriCorps VISTAs work closely with our community impact team, assignments are based in our UW office, school districts, partner agencies and community schools.

Service Opportunity Description

The Impact Data VISTA will work with the Impact Team to be focused on data collection and evaluation for UWGLV's funded partners and providers. They will be closing the gap in disparities and helping to research and analyze data outcomes and trends in preparation for the next investment portfolio process. They will work with the Asst. Director of Impact Operations to prepare for the UWGLV 2022-2028 investment plan. The VISTA will also support data capacity building by assessing partner agencies' current ability in various aspects of data collection and reporting. They will continue executing the data equity program by leading and supporting the first two cohorts with partner providers. Finally, the VISTA will work toward the goal of understanding inequities that exist within UWGLV investments.

This assignment is full-time and requires a 1 year commitment. The position is based at United Way of the Greater Lehigh Valley.

For more information, please contact Jennifer Nicolosi, Asst. Director, AmeriCorps Programs at jennifern@unitedwayglv.org
