As we navigate an ever-evolving world, our mission remains as relevant today as it was over 100 years ago. United Way of the Greater Lehigh Valley is committed to ensuring that every person at every age and stage of life has the resources they need to thrive.

For 15 consecutive years, our United Way has experienced growth—a testament to your dedication and passion. Thanks to your generosity over the last year, we invested **\$26,757,281** into the community and reached nearly **200,000 people** through more than **150 programs and services** led or supported by United Way.

Lives are changing because of you.

In 2025, we are deepening our commitment to our work in **Education, Healthy Aging and Community Stability**. Education remains our biggest investment, because we believe it is the most powerful path out of poverty, and our focus on healthy aging and community stability allows us to respond to emerging needs effectively and increase access to the support our community needs.

We also recognize that there is more work to do. Nearly 46% of households in our region struggle to afford basic needs. A majority of our students still struggle in school, and mental health needs continue to rise across all ages. But your support is making a measurable impact—one student, one family, one senior at a time.

Our commitment remains steadfast: to be relevant, agile and responsive to the evolving needs of our community. Our work begins and ends with service, and your time, talent and involvement have created real impact.

We all have a part to play. Together, we can achieve even greater outcomes for children, families, seniors and veterans throughout the Greater Lehigh Valley.

2023 CAMPAIGN: \$25,002,145

(April 2023 – March 2024)

A strong network of donors and partners UNITED to raise a **record-breaking \$25,002,145** during United Way's 2023 annual fundraising campaign under the passionate leadership of Tony and Adrienne DaRe of BSI Corporate Benefits.

As a result, our organization has increased its investments into solutions that benefit children, families and older adults in the Greater Lehigh Valley with an added emphasis on one of the region's most pressing issues through the **UNITED for Mental Health** campaign.

Across the nation, mental health needs are rising rapidly, creating substantial impacts on all parts of life including physical health, quality of life and even a student's ability to learn in school.

The commitment to this campaign empowered United Way to award **\$250,000 in new funding** to support programs and services for veterans as well as innovations in youth mental health, including micro-grants for young leaders who are ready to be part of the solution.

THANK YOU, TONY AND ADRIENNE DARE!

"As our campaign focused on mental health, we saw firsthand how United Way was working to create solutions to make a real difference. We're proud to know that the funds raised will go directly to programs that connect children, parents, veterans and their families to the critical services they need most."

EDUCATION

STUDENT MENTAL HEALTH AND WELLNESS

Many students arrive at school carrying the invisible burden of trauma, impacting their ability to focus, regulate emotions and engage in learning. These challenges can lead to struggles with attendance, behavior and academic performance. United Way is dedicated to removing these barriers so more students can graduate ready for life, career or college.

82% of students identified through the Student Assistance Program as needing mental or behavioral health supports were **connected to services**.
